9. The OC Professional Opportunities in Telecommunications (POINT) Program offering career opportunities to internal Agency employees now has 30 applicants, with all but eight in various stages of testing and evaluation. The first successful POINT candidate is tentatively scheduled to enter OC training circa July 1986.

10. OC was recently chosen as a test site for the prototype Office Budget Formulation system utilizing an IBM Personal Computer. In the near future, OC will complete the database loading process and begin testing the system's capability to produce the forms required for the next budget submission.
